

## **How do I?**

### **An occasional series**

### **This week: Some Useful Links**

As we write the **How do I?** series we often have to do research. Much of the time that involves going to web sites to verify model numbers, check pricing, etc. Here are a few of the sites I find the most helpful. Not in any particular order and no endorsement given or implied. Because many of these make, distribute or sell many types of amateur radio products, it is nearly impossible to sort them by “radio manufacturer”, “antenna”, “accessory, etc”.
